WELCOME

to our Practice Ready Ontario candidate!

Dr.

We are proud to be serving as a **Practice Ready Ontario** clinical field assessment site.

Practice Ready Ontario is a program that enables rigorous assessment of internationally trained general practitioners and family physicians with clinical practice experience, so that they can practice in Ontario.

The program is working to expand the healthcare workforce and add more family doctors in high-need rural communities like ours.

Please join us in welcoming our Practice Ready Ontario candidate who is completing a 12-week clinical field assessment in our community.
